ADVANTAGES OF DISTANCE LEARNING PROGRAMMES
The Distance and Independent Studies Center (DISC) has 25 years of experience in developing and designing academic courses for guided self-study. Approximately 4,300 students who want to improve their future career prospects are currently enrolled in part-time Master's and Certificate programmes at DISC.

More than 80% of students in DISC distance learning programmes successfully complete their courses. The reason for the high success rate is the combination of renowned academic programme leaders with strong links to the professional world, the didactically and professionally prepared learning materials, the range of online courses and materials, and the reliable advisory and support services offered by DISC employees.

THREE PILLARS OF HIGH-QUALITY PROGRAMMES
> self-study material developed specifically for this degree programme by leading scientists
> online interaction via learning platform throughout the entire academic programme
> two on-campus phases of one week each, that take place in the first year

Dear potential students,

The aim of this programme is to develop and strengthen the evaluation and monitoring capacities of government, the private sector, and social organisations with a view to improving the performance of state administrations and the delivery of public services. The distance learning programme is essentially supported by the Center for Evaluation (CEval) at Saarland University, which not only offers decades of evaluation practice, but also promotes the development of theories and methods of evaluation. Furthermore, it is the only Blended Learning programme of Evaluation in Europe, which combines online learning with face-to-face learning.

Prof. Dr. Reinhard Stockmann
Saarland University
Department of Sociology and Director of the Center for Evaluation (CEval)
Scientific Head of the Distance Learning Programme "MABLE"

Adj. Prof. PD Dr. Wolfgang Meyer
Saarland University
Deputy Director of the Center for Evaluation (CEval)
Scientific Head of the Distance Learning Programme "MABLE"

OBJECTIVE

- introduction to evaluation
- conducting and managing evaluations
- evaluation design
- data collection and analysis methods
- economic evaluation and M&E
- key communication qualifications
- evaluation of the SDGs (sustainable development goals)

and more

AT A GLANCE

Degree/Title: Master of Arts (M.A.)
Duration: 4 semesters (part-time)
Costs per Semester: 1,500 Euro + presently 108 Euro social fee
Start: winter semester of each year (October)
Language: English

TARGET GROUP

The programme is designed for three general target groups:
1. graduates (at least at the bachelor level) of social science degree programmes in particular but also students from other subjects
2. experienced evaluators who want to enhance or deepen their knowledge in specific areas
3. people who commission or conduct evaluations and want to gain new insights into the field of evaluation

ADMISSION REQUIREMENTS

Interested persons seeking admission to the programme must have a first university degree and relevant work experience of typically no less than one year after acquiring the first degree. Furthermore, they must proof their knowledge of statistics and relevant methodological skills as well as sufficient English proficiency.

Detailed information can be found here:
